DETAILED ACTION

Election/Restrictions

1. A telephone call was made to Attorney Roger D. Wylie on July 16, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Upon initial review of the claims it appears that claims 1-71 differ in subject matter and therefore require a different search. In accordance with this a restriction is deemed proper.

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-52, 56, and 59-68, drawn to a menu wherein the interface element is a list of items from which the user may choose, classified in class 345, subclass 810.

II. Claims 53-55, 57-58, and 69-71, drawn to a database providing means for organizing and inter-relating data or files, classified in class 707, subclass 100.

4. The inventions are distinct, each from the other because of the following reasons:

Inventions Groups I and Groups II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility of selecting links to items in a menu while invention II teaches the access and retrieval of data from a database. See MPEP § 806.05(d).

Art Unit: 2174

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and divergent subject matter, and because the searches for the individual Groups are not coextensive, restriction for examination purposes as indicated is proper.
6. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
